Who are we?

Friends of Recovery - New York (FOR-NY) is a statewide coalition of people in recovery from addiction to alcohol and other drugs.

The FOR-NY community includes individuals in recovery, our families, friends and allies.
Our Mission

To demonstrate the power of recovery from addiction, as well as the tremendous value recovery provides to individuals, families and communities...

Our Vision

We envision a world in which recovery from addiction is both common and celebrated; a world in which the entire spectrum of effective prevention, treatment and recovery support services are available and accessible to all.
Our Beliefs

- Addiction is a public health issue
- Recovery is possible for everyone
- There are many pathways of recovery and everyone finds their own way
- Adequate resources and support are necessary for sustained recovery
- Recovery is about reclaiming a meaningful life as a member of society
Humanize: Real Life Stories
Recovery Education and Training

Education is critical to reducing the stigma associated with addiction and creating an informed society where Recovery for individuals and families becomes a societal norm.

CRAFT Family Education Group Facilitators

Theresa Knorr
CRAFT Family Education Group:

1. Improve Quality of life regardless of whether our loved one enters Recovery or not.
   - Improve relationships and emotional and physical health

2. Empower use of our abilities and relationship to positively influence loved one toward change
   - Understanding how we effect our loved one and how our loved one affects us (and work to modify that pattern to achieve different results.)
   - When we are less stressed/angry this leads to a change in our communication patterns and that may lead to a change in our loved one’s behavior

3. Reduce our loved one’s harmful substance use
   - Take steps to help our loved one see Recovery as more attractive than using

4. Engage our loved one into treatment or recovery support services or other recovery pathway.
CRAFT FEG Outline:

1. Motivational Strategies for Engaging Loved Ones
2. Enriching our lives as family members/Safety concerns
3. Why our loved one likes to drink/use drugs (Functional Analysis)
4. Functional Analysis (part 2)

Stand Up For Recovery Day
Tuesday March 6, 2018

Stand Up for Recovery with FOR-NY
March 6th, 2018

What: Stand Up For Recovery Day 2018
When: March 6th, 2018 8am-3pm
Where: Empire State Plaza Concourse-Convention Hall, Albany, NY

Why: On behalf of millions of individuals and families in New York impacted by addiction, Friends of Recovery New York (FOR-NY), the statewide Recovery Community Organization (RCO) is committed to educating decision makers and the general public about addiction recovery and calls for the end of discrimination that blocks access to addiction treatment, housing, employment, education and community-based recovery supports.

Over 700 recovery supporters attended last year's Stand Up For Recovery Day- the results were remarkable!

Let’s Make 2018 Even Bigger!!
Advocacy In Action

How do we turn an idea into a reality?
What is Advocacy?

4 Parts

- Speaking Out
- Humanizing
- Organizing
- Mobilizing
What can Advocacy Lead to?

Just this last year:

1. **Insurance Parity**— S.1156 (Ortt)/A.3694 (Gunther) This legislation will require the Superintendent of Financial Services to collect and publish key data from insurers and health plans regarding their coverage for addiction and mental health care in a number of areas. Not only will this information allow the government to ensure that insurers and health plans are in compliance with parity laws, it will enable consumers to make informed decisions regarding insurance options, to select the plan that will best suit their needs. This is a key win for the recovery community! See our memo of support [here](#).

2. **Ending Patient Brokering**— A.7689 (Rosenthal)/ S6544 (Akshar) This legislation would amend the Mental Hygiene Law by making it a misdemeanor for any provider to solicit, receive, accept or agree to receive or accept any payment for the referral of a person as a potential patient for substance use disorder services. This legislation will help to further deter the practice of patient brokering in NYS thereby creating a safer environments for individuals and families seeking help. This is also an incredible win for the recovery community!

3. **Passage of the Opioid Stewardship Fund**
   Article VII Part NN Title 2A establishes the Opioid Stewardship Act which creates a $100 million “opioid stewardship fund.” Such fund will be paid to New York State OASAS to provide opioid treatment, recovery and prevention and education services; and to provide support for the prescription monitoring program registry. The fund will be paid into by pharmaceutical manufacturers and distributors—not the consumers—as of January 1, 2019. Creating a new funding stream for prevention, treatment and recovery is a first step to ensure that our budget demands in years to come have a clear way of being funded.

4. **Establishment of the Independent Substance Use Disorder and Mental Health Ombudsman Program**
   Article VII Part FF establishes the Office of the Independent Substance Use Disorder and Mental Health Ombudsman. The role of the ombudsman helps Substance Use Disorder consumers “ensure that they receive appropriate health insurance coverage.” This role is integral to our top priority of Insurance Parity.
Bottom Line: Advocacy Works!
So, Where to Begin?
Things to know when developing an Advocacy Plan

- Know who your Allies are and form an advocacy committee
- Decide what is most important to your group—create a mission statement
- Develop the 45 second elevator pitch
- Decide who you will deliver your message to:
  - Newspapers
  - Online media
  - Face to face (door to door or meeting with legislators)
  - Phone calls
  - And more
The 45 Second Elevator Pitch as an advocacy tool

- A “pitch” is what anyone should be able to understand in the time it takes to ride between floors in an elevator.
- A “pitch” is an invitation to be a part of your group, not just a solicitation.
  - It explains what you do, why it matters, and the opportunity for others to be a part of the vision.
  - It shouldn’t say “Help Us.”
- It should communicate how you can help each other. In other words, the group’s impact on the community you share.
Allison Weingarten’s: Elevator Pitch Example
Who are we targeting?

- The public
- Elected Officials [Decision makers, Community Leaders, Law Enforcement]
- The Media
- Anyone else?
Our Stories Have Power (OSHP)
Next Steps: How do we engage our partners?

- Who are our partners?
- How can we engage them to create a unified message?
Ideas for 45 Second Elevator Pitches

- What is my plan of action?
  - Who will I reach out to?
  - When will we meet to discuss?
  - How will we follow up?
- What is the target date for the 45 Second Elevator Pitch?
  - Remember “Stand Up For Recovery Day” is March 6!
  - Make sure to include time to practice!
How To Talk About Addiction
PUT PEOPLE FIRST

Avoid terms like
- Junkie
- Addict
- Druggie

Instead use terms like
- People with addiction
- People who are fighting addiction
- People who struggle with substance use disorder (SUD)

Avoid "clean"
If you're now clean, it means before you were dirty

Instead say "in recovery"
Wrap UP:

Where do we go from here?
