**Paid Leave Bill Signed into Law**

In announcing passage of the bill, Assembly Speaker Heastie described its provisions as follows:

“In order to help protect New York's workers and to curb the spread of COVID-19, this legislation will make all private and public sector employees eligible for sick leave and wage replacement during a mandatory or precautionary order of quarantine or isolation due to COVID-19.

- Employees that work for small sized employers, which includes employers with 10 or fewer employees and that have a net income of less than $1 million, would receive unpaid sick leave and immediately become eligible for Paid Family Leave and Temporary Disability Insurance (TDI) benefits.
- Those working for medium sized employers, which includes employers with 10 or fewer employees that have a net income of greater than $1 million and employers with between 11 and 99 employees, would receive at least five days of paid sick leave, followed by eligibility for Paid Family Leave and TDI benefits.
- Those working for employers with 100 or more employees, as well as all public employees, would receive a minimum of 14 days of paid sick leave.

The bill will allow these employees to collect Paid Family Leave benefits, supplemented by increased TDI benefits to make their weekly wages whole, for those who earn up to a maximum of $150,000 annually. Additionally, it eliminates the waiting period for these benefits, as well as for unemployment insurance for claims related to the coronavirus. It also expands Paid Family Leave benefits to cover an employee or their dependent child if they are under a mandatory or precautionary order of quarantine or isolation due to coronavirus.”
