

(4.28.20) The following update is sent on behalf of the Brown & Weinraub team:

DAILY BRIEFING

Governor Cuomo held his daily briefing at SUNY Upstate Medical Center where he had the opportunity to thank front line health care workers.

Reopening is a factual discussion.

The objective is to reopen without infecting more people or overwhelming the hospital system.

Regional Analysis for opening after May 15:

1. CDC guidance – 14-day downward trajectory of cases
2. ID industries to reopen employ a lot of people but can accommodate precaution
 - Must not be businesses that will attract people from outside the area
1. What precautions will business take?
2. Maintain hospital capacity below 70% (mindful of fall flu season)
3. Testing regimen – 30/1k people per month
4. Tracing system – need at least 30 tracers per 100k people (working with Bloomberg)
5. Availability of isolation facilities
6. Regional Coordination
7. Reimaging tele-med
8. Reimagine tele-education
9. Regional “Control Room” to monitor metrics and determine if interruption is needed
10. Respect essential workers
