

## **ASAP-NYCB Peer Recovery Notifications Distribution Program 2021**

(February 1, 2021) The ASAP-NYCB Peer Recovery Notifications Distribution Program offers stakeholders in the peer recovery profession an opportunity to submit notices for distribution to New York Certification Board (NYCB) certificants. At time of writing, the ASAP-NYCB dedicated database numbers more than 2,000 certified peer recovery professionals located throughout New York State, with additional certificants added every month following certification approval.

Notices suitable for distribution to this unique database include announcements relevant to the NYS peer recovery workforce, especially those related to employment opportunities and recruitment events. Flyers for peer learning collaboratives, and other relevant community resources, are also welcome.

Commercial advertisements, including training opportunities, are not eligible for this service.
